Product description:

HONDA WT20X Trash Water Motor Pump Petrol High Flow Rate

HONDA WT20X Trash water Motor Pump is a powerful and versatile trash water pump that is well-suited for a variety of applications. It is powered by a Honda GX160 engine and can pump up to 650 liters (170 gallons) of water per minute. It can handle solids up to 1 inch in diameter.

Key Features

Powerful GX160 engine: Honda GX160 engine is known for its reliability and durability. It is a 4-stroke overhead valve (OHV) engine that provides plenty of power for even the most demanding tasks.

Durable construction: HONDA WT20X is built to last. It features a cast iron volute and impeller, as well as a rugged steel frame.

Easy to use: HONDA WT20X Trash water is easy to start and operate. It features a one-pull easy start system and a self-priming pump.

Versatile: HONDA WT20X Trash water can be used for a variety of applications, including dewatering flooded basements, pumping water from construction sites, and cleaning up debris from storms.

Specifications

Engine: GX160

Displacement: 163 cc

Maximum flow rate: 650 liters (170 gallons) per minute

Solid handling capability: Up to 1 inch in diameter

Dimensions: 24.4" x 17.1" x 15"

Weight: 55 lbs

Product features:

Fuel: Gasoline

Engine: Honda GX160, 4 stroke, OHV

Ignition: Transistorized

Engine capacity (cm³): 163

Cooling: Forced air

Bore x stroke (mm): 68 x 45

Net power (kW): 3.6

Pump type: High flow rate pump

Fluid type: Dirty water

Maximum output capacity (Lt/min): 710

Pressure (bars): 3

Inlet diameter thread type (mm/inches): 50 mm - 2"

Outlet diameter thread type (mm/inches): 50 mm - 2"

Debris size capacity (mm): 24

Total head (m): 30

Fuel tank capacity (L): 3.1

Consumption (L/h): 1.09

Running time (h): 2.83

Acoustic power: 106 dB(A)

Acoustic pressure: 92 dB(A)

Length (mm): 620

Width (mm): 460

Height (mm): 465

Dry weight (Kg): 47

Silenced: No

Super silenced: No
