

DOMETIC AIR DISTRIBUTION KIT FOR DOMETIC MCS

Product price:

177,00 € tax excluded

Product description:

This additional kit for the Dometic MCS T12 and MCS T16 marine climate systems can be used to cool or heat two cabins simultaneously. The flexible design adapts easily to the individual installation situation.

Dual cool

The Dometic Air Distribution Kit is a neat solution for ensuring comfortable temperatures in two cabins. Used with Dometic MCS 10, MCS 12, MCS 15, MCS 16 air climate control systems, it conveniently allows two cabins to be cooled or warmed simultaneously. The kit, which includes air duct, closable supply air grille and y-piece, is designed flexibly to ensure easy fitting regardless of existing mounting conditions.
