

LOMBARDINI LMG 9000 MARINE GENERATOR 10KVA SINGLE PHASE AVR

Product price:

12.880,00 € tax excluded

Product description:

LOMBARDINI LMG 9000 MARINE GENERATOR 10KVA SINGLE PHASE AVR

Lombardini LMG9000 Single-phase 10 KVA marine generator with 3000 rpm motor. The Lombardini LMG9000 marine generator is built with a soundproof capsule that makes it **supersilenced**. The Lombardini LMG9000 marine generator is built with a diesel-powered Lombardini LDW702MG engine. The alternator of the Lombardini LMG9000 marine generator is synchronous, with brushes and **AVR** voltage regulator. With its compact size and low weight, the Lombardini LMG9000 marine generator is also suitable for installation on small or medium-sized boats.

Motor

The marine generator is equipped with an engine FOCS (fully overhead controlling system) characterized by low noise, absence of vibrations and small size.

Alternator

The Lombardini LMG9000 is built with synchronous type alternator with brushes and water cooled. Thanks to the AVR voltage regulator the delivered voltage is practically constant between "empty" and rated power.

Cooling

The Lombardini LMG9000 marine generator is characterized by a FULL WATER cooling that involves both the engine and the alternator; the sea water, through a special circuit, cools the fresh water of the engine, the oil and the external walls of the marine generator set alternator.

Remote Control Panel

The Lombardini marine generator is equipped with a remote control and command panel with 15 m of cable and quick connect connector, complete with high water temperature and low oil pressure warning lights. A display indicates hours of operation, voltage, current output, and maintenance alerts. An additional control panel is available upon request.

TECHNICAL FEATURES LOMBARDINI LMG9000

Phase Type: Single Phase

Continuous Power: 10 KVA / 8 KW

Fuel: Diesel

Voltage: 230 V

Frequency: 50 Hz

Engine: Lombardini LDW 702 MG

Emission standard: Not Emitted

Number of cylinders: 2

Displacement: 686 cc

Engine RPM: 3000 rpm

Acoustic power: 62 dBA

Voltage regulator: AVR

Length: 780 mm

Depth: 480 mm

Height: 620 mm

Net Weight: 178 kg

Product features:

Phase: Single phase

Continuous power single phase (KW): 8

Continuous power single phase (KVA): 10

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Lombardini LDW 702 MG, 4 stroke

Emissions Regulations: Not Emitted

Engine rpm (rpm): 3000

Engine capacity (cm³): 686

Number cylinders: 2

Cooling: Water

Alternator: Synchronous
Acoustic pressure: 62 dB(A)
Length (mm): 780
Width (mm): 480
Height (mm): 620
Dry weight (Kg): 178
Silenced: Yes
Super silenced: Yes
Brushes: Yes
Product type: Generator
Voltage regulator: AVR
Engine manufacturer: Lombardini
