

# DOMETIC COOLMATIC CRX 65DS Drawer fridge with cell Freezer 12/24 Volt DC

## Product description:

The CRX Series of refrigerator is a veritable chameleon. It's a fridge, it's a fridge-freezer and it's a freezer. This patented invention is down to the removable freezer compartment and smart electronics that regulate the compressor speed, simultaneously saving energy. The freezer box can simply be pulled out to make a larger fridge or freezer and the desired temperature manually set. (CRX 110 and 140 does not include removable freezer compartment).

This elegant drawer fridge gives you convenient slide-out access to your provisions. The patented freezer compartment can easily be detached to make more room for fresh or frozen goods. Electronic compressor and fan speed control ensures quiet operation and economical power consumption. Supplied with stainless steel front panel.

## Drawer fridge & freezer

For smaller vehicles and panel vans, Dometic provides smart refrigeration solutions that fit into every niche on board: pull-out cooler/freezer combos that excel with practical features, cool convenience and elegant design. The latest addition to this product range is the Dometic CRX 65D / 65 DS. Well thought-out details and energy-saving compressor technology make the smart space-saver an indispensable companion on the move. The new drawer fridge offers a very convenient way to keep track of the food and beverage provisions on board. Ready for connection to 12 and 24 volt systems, the fridge is extremely energy-saving and safe to use, too.

## Getting there is up to you - staying there is up to us!

We are inspired by those who seek freedom of nature! Travelling is the process to get from A to B, but we help people with their Journeys - we want to give you the possibility to go out there and do your bucket list, connect with people and nature, see things and experience more. We don't just want you to visit amazing places - we want you to stay.

## Cool elegance and smart features

The Dometic CoolMatic CRX 65D drawer fridge combines cool elegance and innovative features

behind a beautiful stainless steel front panel. It offers 50 l of cool storage and an optional 7 l of freezer space. The patented freezer compartment can easily be removed to make more room for fresh or frozen goods. You can choose between having a full fridge, full freezer or combination of the two. The desired temperature is set on the soft touch control panel which is flush mounted in the inner wall and integrates the LED light.
