

# DOMETIC RMD 10.5T

## Absorption refrigerator 12 V / 230 V

### Product description:

NO LONGER IN PRODUCTION

Our new 10-series absorption refrigerators have changed the way food and drinks are kept fresh in motorhomes and caravans. A pleasure to look at and easy to use, they come with many new features for enhanced comfort and convenience: double-hinged doors opening left and right, elegant aluminium handles across the entire height, new intuitive controls, a new crisper and improved cooling unit. Perhaps most importantly of all, it's also the best-in-class for cooling performance!

This new generation absorption refrigerator gives you unprecedented convenience: automatic selection of the energy source (12 V, 230 V or gas), a door that opens to the left and right, and a versatile interior with plenty of room for your goodies. On top of all that, its cooling power is the best-in-class!

### TFT control panel

Intuitive control of cooling temperature, energy source and comfort features.

### Two-point locking system

Fitted on each side of the fridge door for safe and secure usage.

### Versatile interior

Innovative concept makes the best and most flexible use of the available space.

### LED light bar

For uniform, energy-saving illumination of the refrigerator compartment.

### **VG-fresh crisper**

With adjustable humidity and a lid that serves as an extra storage shelf.

### **Unique benefit: the double-hinged door**

The 10-series absorption refrigerators offer a unique benefit: the double-hinged door. Thanks to this patented solution, they can be opened to the left and right as required, without the need to change the hinge. Simply use one of the two convenient and elegant aluminium handles, which extend over the full height of the fridge. The intuitive door handle extends across the entire height of the refrigerator and enables easy opening at any height. A two-point locking system keeps the door securely in place at all times. A new and elegantly designed TFT display ensures optimal readability of refrigerator settings and is easily controlled with an ergonomic knob.

### **Best-in-class cooling performance**

Our 10-series absorption refrigerators are best in their class for cooling performance. They guarantee reliable cooling and deep-freezing in low and high ambient temperatures. So you can have confidence in the quality and condition of your travel provisions, wherever the road takes you! Powered by advanced technology, the new cooling unit was tested in the extreme heat of the Australian desert and maintained its superb performance. It's a powerful and thoughtfully-designed refrigerator you can trust.

### **The first ever CI-bus compatible motorhome refrigerator**

For the first time ever, intelligent refrigerators can now be found in recreational vehicles! Advanced CI-bus technology has made this move from the smart home to the motorhome possible, with Dometic pioneering this advancement. We have been part of creating the new digital industry standard, which allows camping and caravanning friends to operate all their comfort devices, such as the refrigerator, with absolute convenience via their central control unit. This innovation exemplifies our corporate mission to make mobile living easy. Initially, our new CI-bus compatible 10-series refrigerators will be supplied to original equipment manufacturers of recreational vehicles. Models for the aftermarket will be available from 2019.

### **We've taken refrigerator to the next level**

The Dometic RMD 10.5T refrigerator truly leaves nothing to be desired. It's the first ever smart refrigerator which allows operation from the central control unit. A chic design adds glamour to your mobile kitchen, with elegant flat, flush-fitting doors opening to a versatile interior with smart storage solutions for dairies, meat, fruit, vegetables and even wine bottles. The double-hinged doors allow maximum convenience in any space as the doors can be opened left and right using the full-height aluminium handles. In terms of performance, the 10-series Dometic RMD is the best in its class. Tested in the extreme heat of the Australian desert, it maintained its superb cooling performance – a proven reliability that gives users the freedom to travel anywhere!

**Product features:**

Voltage (V): 12 / 230

Length (mm): 550

Width (mm): 523

Height (mm): 1245

Dry weight (Kg): 40

Feed Type: 12 V / 230 V

Product type: Absorption refrigerator

Colour: Anthracite Black (P726)

Capacity of the refrigerator (L): 124

Freezer (L): 29

Climate class: SN

Thermostat control: AES

Coolant: R717
