

DOMETIC COOLFREEZE CFX 100W Portable compressor cooler and freezer

Product description:

Specifically designed to fit all kinds of vehicles, the CFX Series is a range of compact portable compressor fridges and/or freezers to keep food and drinks well chilled or even frozen while out on the road. The range includes a variety of models including an ultra-compact cooler and one with two separate temperature zones for simultaneous cooling and freezing.

A powerful and uncompromising compressor cooler with special CFX electronics. Energy-saving and quiet operation.

LED light

Energy efficient LED interior light.

Easy to carry

Space-saving folding and detachable carrying handles.

Robust

Heavy-duty design with reinforced corners and a robust closing mechanism.

USB port

USB port for charging small electronic devices.

Efficient deep-freezing

Sensational deep-freeze performance down to -7°F with minimal energy consumption.

WiFi App

Temperature control via WiFi App.

Stay cool

Fitted with heavy-duty details like reinforced corners, stainless steel hinges and a robust lid lining, the hi tech coolers in the CFX series can withstand the most demanding of loads. Even so, they are remarkably lightweight and easy to transport. The CFX 35W to CFX 100W models give you the convenient option of controlling and monitoring the cooling temperature by WiFi app.

Tested in the most extreme weather conditions!

The Dometic CFX powered cooler has excellent cooling performance in high ambient temperatures. We know this because its tested in the harsh conditions and extreme heat of the Australian desert! Its rugged, efficient, and ready for action. The CFX is our most awarded product and you'll quickly understand why.

Buy a cooler!

The compressor coolers remains cold or frozen inside even on the hottest days. The powered cooler is ideal for mobile use, on your RV or on your boat trip and for a barbecue at home. The compressor coolers are not only working as portable refrigeration, it also operates as portable freezer as it can deep freeze independently of the ambient temperature.

Where does the CFX get its immense power?

Compressor cooling technology, used in Dometic's CFX series, offers unrivalled cooling power. But how does it work? Well, it relies on a refrigerant that changes from a liquid to gaseous state in the evaporator. The evaporation process extracts heat from the interior of the cooling unit, causing the temperature to drop. The compressor draws in the refrigerant, compresses it and passes it on to the condenser. From here, the absorbed heat is released into the atmosphere. The refrigerant liquefies and flows back to the evaporator, where the cycle begins again. The result of this is an excellent cooling performance, capable of deep-freezing, even at extreme ambient temperatures.

Unbeatable quality features

The CFX 100W represents the next generation of portable coolers. Firstly, there's the CFX Special Electronics which include an intelligent automatic turbo cooler and memory function. Then not only is it suitable for deep freezing down to $-22\text{ }^{\circ}\text{C}$ but it can also operate on solar power. This premium compressor fridge/freezer provides superbly quiet and highly-efficient cooling performance, regardless of the ambient temperature. There's even a USB charging port for charging small electrical devices! Take this amazing fridge and freezer wherever you go thanks to its conveniently detachable carry handles. Fitted with heavy-duty details like reinforced corners, stainless steel hinges and a robust lid lining, Dometic's award-winning CFX series coolers can withstand the most demanding of loads. As well as a huge 100 l capacity, a special feature of the CFX 100W model is the convenient ability to control and monitor cooling temperature by an app on your smartphone or tablet!

High-tech cooler for universal use

The Dometic CoolFreeze CFX 100W is a powerful cooler for refrigeration or freezing. With its high-performance compressor technology and extra strong insulation, this cooler is impressively efficient and withstands the most demanding of loads thanks to its robust design. In addition, the CFX 100W is remarkably lightweight and easy to transport with a quiet operation that avoids disturbance!

Product features:

Frequency (Hz): 50 / 60

Voltage (V): 100-120 / 200-240

Length (mm): 530

Width (mm): 957

Height (mm): 472

Dry weight (Kg): 32

Feed Type: 12 / 24 V - 100-240 V

Product type: Compressor refrigerator

Colour: Grey

Capacity of the refrigerator (L): 88

Freezer (L): 0-88

Climate class: N,T

Energy class: A+

Coolant: R134A
