

DOMETIC FO 200 Front loading refrigeration container 12 V / 230 V

Product description:

Ice cream vans, on-line produce delivery, fresh goods from wholesalers – these cooler containers from Dometic offer safe, tailor-made, cooling solutions. Available as a front loader or top loader, each in three sizes (209 / 435 / 590 litres). Easy-to-operate slide doors, pallet feet and transport rollers (accessories) ensure comfortable handling. The optional battery set can retain the set temperature for up to 8 hours without an external power supply.

This 209-litre refrigeration container was designed for safe transport of temperature-sensitive goods. It comes with a factory-preset fixed temperature of +4 °C for accurate cold chain management. As a front loader, it leaves room on top for transport goods that do not require cooling.

Optional battery set

Up to 8 hours cooling without an external power supply

Flexible power supply

230 V AC, 12 or 24 V DC, or independent operation with optional battery set

User-friendly design

With locking and smooth-running sliding doors

Cool companion for refrigerated transports

If the transport of fresh produce and other temperature-sensitive goods is your business, the Dometic FO 200 is a cool choice for you. The front loading refrigeration container gives you 209 l of storage behind two smoothly running sliding doors. It comes with a factory-preset fixed temperature of +4 °C, so the mandatory cold chain is reliably maintained at all times. As a front loader, the FO 200 leaves room on top for other transport goods that do not require cooling.

Fitted with pallet feet, it allows safe loading and unloading with a forklift.
