

ZIPWAKE KIT BOX 300S

Product description:

ZIPWAKE KIT BOX 300S DYNAMIC ASSET SYSTEM FOR BOATS

ZIPWAKE box 300s is a complete ready-to-use dynamic boat attitude control KIT that contains:

- 1 Control Panel with 7 meters of standard cable
- 1 Distribution Unit with 4 meters of power cable
- 2 Interceptors 300s with 3 meters of cable and cable cover
- 1 extension cable of 1.5 meters

Any basic installation can be expanded with up to two extra pairs of S-series interceptors, thus allowing for a total of six interceptors without the need for additional connectors or power supplies.

COMFORT AND SAFETY

Dynamically eliminates awkward and dangerous boat pitch and roll.

PERFORMANCE AND FUEL SAVING

Automatically minimizes wave drag and saves fuel.

INTUITIVE AND PRECISE

Innovative 3D controls provide unparalleled control of trim, heel or direction of travel.

DURABLE AND EFFECTIVE

The patented series of fast-acting, durable interceptors provide supreme lifting force characteristics.

COMPLETE AND COMPETITIVE

The all-inclusive, mass-produced modular design offers built-in quality, simple installation and easy expansion, making the system affordable.

Swedish manufacturer's Interceptors Zipwake are attitude correctors that mitigate boat roll while underway, correct pitch and trim while sailing, and save fuel. The current range of Zipwake Interceptors is suitable for boats from 20 to 60 feet, electrically powered and easy to install, even in retrofit; in addition, a new range for boats over 60 feet is planned for launch in 2016.

The ZIPWAKE Interceptors are available in three lengths (350 mm, 400 mm and 450 mm) and can be combined according to the size and shape of the transom: a maximum of six can be installed by connecting them to the same electronic control unit which is in turn controlled by a digital panel with an integrated gyroscope that automatically sends the impulse to the Interceptors to correct the trim. The response of the ZIPWAKE box 300s is very fast, the system can be configured with 1, 2 or 3 control stations and the prices are absolutely interesting.

Visit our page dedicated to the ZIPWAKE products in order to extend the functionality of the ZIPWAKE BOX 300S kit.

Product features:

Voltage (V): 12 - 32

Power cable length (m): 4 +7 +1.5

Length (mm): 155

Width (mm): 680

Height (mm): 275

Product type: Dynamic Trim Control System

Weight (Kg): 7
