

CGM SUPERPOWER 2200I GENERATOR SINGLEPHASE

Product price:

540,00 € tax excluded

Product description:

CGM SUPERPOWER 2200I Singlephase generator 2.2KVA 2KW Silenced inverter

The generator **Singlephase CGM SUPERPOWER 2200I Silenced inveter** is equipped with a 2,2 KVA 2KW gasoline engine; with engine produced in Italy and guaranteed in all the way, the CGM SUPERPOWER 2200I is ideal for both professional and hobbyist use.

The strengths of the CGM SUPERPOWER 2200I with 2KW power are: the inverter technology that allows to reduce consumption and noise as well as offering a high level of functionality, **lightness only 22kg weight**, compactness Length: 560 mm Width: 270 mm Height: 455 mm, ease of use and modern design. The 2KW singlephase generator set is equipped with a very easy to start manual rope start and mounts a 4-stroke motor specifically designed by CGM SUPERPOWER 2200I to optimize performance, **consumes only 1Lt/h** in small size.

The Inveter silenced singlephase generator with a power of 2. 2 KVA 2KW has been specially developed for camping, caravans, houses, and hobby applications, but also for work being very robust and handy, being able to use all its power of with **verter technology**.

The range of CGM SUPERPOWER 2200I super-silent generators inverter

CGM SUPERPOWER 2200I is a product that respects a high quality standard and guarantees a high level of reliability. For this reason the 2KW generator set is able to ensure 12 months warranty and spare parts availability all over the world.

The strengths of the 2KW SUPERPOWER 2200I CGM are: the high quality of the components, the lightness, the compactness, the ease of use and also the modern design.

This range of products is specially developed for camping, caravans, home use, hobby: robust, easy to use and reliable generators.

The advantages of Inverter technology

The speed of these 2KW current generators is variable.

When the singlephase generator is turned on the engine idles, as soon as more electricity is drawn at a certain point, the engine automatically accelerates to cover the required electricity consumption.

This results in a significant reduction in fuel consumption! In addition, all generators with 2KW power with inverter technology also have the automatic voltage regulator AVR.

Technical Features of CGM SUPERPOWER 2200I Singl Phase Generator

Maximum singlephase power: 2KW

Maximum singlephase power: 2. 2 KVA

Fuel: Gasoline

Voltage: 230V

Frequency: 50Hz

Starting: Manual

Consumption: 1 Lt/h

Length: 560mm

Width: 270mm

Height: 455 mm

Weight: 22 Kg

Supersilenced

Inverter Technology

If you want a singlephase generator with more power than you can see the following models always of the same Inverter Silenced Range.

Images and technical data not binding.

Product features:

Phase: Single phase

Maximum power single phase (KW): 2

Maximum power single phase (KVA): 2.2

Fuel: Gasoline

Frequency (Hz): 50

Voltage (V): 230

Sockets configuration: 2 Schuko

Engine: CGM, 4 stroke

Emissions Regulations: Stationary Use

Engine rpm (rpm): 3000
Starting system: Manual recoil
Number cylinders: 1
Fuel tank capacity (L): 5
Consumption (L/h): 1
Running time (h): 5
Acoustic pressure: 58 dB(A) at 7 m
Length (mm): 560
Width (mm): 270
Height (mm): 455
Dry weight (Kg): 22
Silenced: Yes
Super silenced: Yes
Product type: Generator
ATS Switch device : No
Voltage regulator: Inverter
Engine manufacturer: CGM
