

SCANGRIP LINE LIGHT 200 - LINEAR LED TUBE 2027 mm 1600 LUMEN

Product price:

220,00 € tax excluded

Product description:

200 cm SCANGRIP LINE LIGHT lighting unit for universal application

SCANGRIP LINE LIGHT is a flexible lighting solution for universal application designed for use anywhere where strong, efficient and concentrated light in a specific working area is needed.

SCANGRIP LINE LIGHT concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the entire working area. Blinding during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle.

The LINE LIGHT series of SCANGRIP is based on the newest state-of-the-art LED technology. SCANGRIP LINE LIGHT provides almost double illumination compared to the traditional 36W fluorescent tubes which are commonly used within the industry.

The quality of the light is extremely powerful, like daylight which is optimum for precise recognition of colours, shades and other product details. The uniform, flicker free illumination without strobe effects also minimizes the risk of accidents.

SCANGRIP LINE LIGHT is constructed by a closed "unbreakable" extruded acrylic profile (PMMA) which makes it extremely sturdy and shockproof to endure even strong strokes, shocks and vibrations from industrial machinery.

SCANGRIP LINE LIGHT endures the rough, wet and dirty conditions of the professional working environment within the industry and is resistant to both oil and chemicals. The IP67 classification means that it is resistant to both dust and water.

Compared to traditional fluorescent tube lighting SCANGRIP LINE LIGHT only consumes half the amount of electricity which presents serious cost savings on electricity.

The technical lifetime of LEDs is at least 100,000 hours.

The SCANGRIP LINE LIGHT lighting units are available in different lengths which can either be used alone or connected in a string to fit all kinds of application.

The lighting units can be combined exactly the way you want offering a flexible lighting solution.

A range of suspensions makes it possible to position the lighting units exactly where you need it.

// Available as accessory, the LINE LIGHT DIMMER lets you adjust the light intensity seamlessly

// The design of SCANGRIP LINE LIGHT 200 is unique and covered by EU design patent RCD No 1882523.

Product features:

Protection degree: IP65

Type of lamps: LED

Total lumens (Lm): 30000

Length (mm): 2330

Width (mm): 25

Height (mm): 25

Dry weight (Kg): 0.86

Weight (Kg): 5.4
