

EMILSPRAYER 55 Tank for sanitizers

Product description:

EMILSPRAYER 55 sanitizer tank

EMILSPRAYER 55 sanitizer tank perfect for spraying pesticides for agriculture and products for sanitizing and sanitizing. The EMILSPRAYER 55 sanitizer tank has a capacity of 55 litres with a flow rate of 8.3 litres/minute. The EMILSPRAYER 55 tank is small and handy as it weighs only 9 Kg. Easy to transport the EMILSPRAYER 55 hygienizer tank is suitable to be taken where you need it most.

The EMILSPRAYER 55 sanitizer tank is extremely versatile and has a wide range of applications:

- Professional cleaning and disinfection, using detergents, chemicals and germicidal liquids.
- Gardening and agriculture, in greenhouses and nurseries, using phytosanitary products, herbicides and for pest control

The EMILSPRAYER 55 tank is made of a polymer that is resistant to chemicals and UV rays; in addition, the wall thickness and the targeted design prevent deformation of the product over time and in use. The EMILSPRAYER 55 tank is equipped with a diaphragm pump with continuous duty cycle and valves made of Viton® resistant to chemicals. The integrated pressure switch activates the pump only during the product delivery phase, reducing wear and increasing efficiency. The lance ensures precise delivery by acting on the adjustable nozzle, which allows you to spray a single jet or atomise the product.

The main technical features of the EMILSPRAYER 55 tank are:

- Capacity: 55 litres
- Dimensions: 460x360xh900 mm
- Weight: 9 Kg
- Electric diaphragm pump 12V, flow rate 8,3 litres/minute, max pressure 4,8 bar
- Continuous duty cycle, Honeywell MICRO SWITCH™ pressure switch
- Santoprene™ membrane and Viton® valves resistant to chemicals
- 4.5 meters of pipe

- Aluminium dispensing lance with gun. Range 9m horizontally + 6m vertically
Electrical cable and pliers for connection to the power battery and switch.
