

## EMILSPRAYER 330 Tank for sanitizers

Product price:

**632,00 € tax excluded**

### Product description:

EMILSPRAYER 330 sanitizer tank

EMILSPRAYER 330 sanitizer tank perfect for spraying pesticides for agriculture and products for sanitizing and sanitizing. The EMILSPRAYER 330 sanitizer tank has a capacity of 330 litres with a flow rate of 8.3 litres/minute. The EMILSPRAYER 330 tank is small and handy as it weighs only 24 Kg. Easy to transport the EMILSPRAYER 330 hygienizer tank is suitable to be taken where you need it most.

The EMILSPRAYER 330 sanitizer tank is extremely versatile and has a wide range of applications:

- Professional cleaning and disinfection, using detergents, chemicals and germicidal liquids.
- Gardening and agriculture, in greenhouses and nurseries, using phytosanitary products, herbicides and for pest control

The EMILSPRAYER 330 tank is made of a polymer that is resistant to chemicals and UV rays; in addition, the wall thickness and the targeted design prevent deformation of the product over time and in use. The EMILSPRAYER 330 tank is equipped with a diaphragm pump with continuous duty cycle and valves made of Viton® resistant to chemicals. The integrated pressure switch activates the pump only during the product delivery phase, reducing wear and increasing efficiency. The lance ensures precise delivery by acting on the adjustable nozzle, which allows you to spray a single jet or atomise the product.

The main technical features of the EMILSPRAYER 330 tank are:

- Capacity: 330 litres
- Dimensions: 1200x800xh650 mm
- Weight: 44 Kg
- Electric diaphragm pump 12V, flow rate 8,3 litres/minute, max pressure 4,8 bar
- Continuous duty cycle, Honeywell MICRO SWITCH™ pressure switch
- Santoprene™ membrane and Viton® valves resistant to chemicals

- 4.5 meters of pipe
- Aluminium dispensing lance with gun. Range 9m horizontally + 6m vertically
- Electrical cable and pliers for connection to the power battery and switch
- Lid included.
