Product description:

Ride-on Lawnmower HONDA HF 2417 HTE

HONDA HF 2417 HTE lawn tractor designed and engineered with a new type of GCV530 engine even more docile, fluid that makes this lawn tractor easy to drive. Beautifully finished, HONDA HF 2417 HTE lawn mower is built to give you a beautiful lawn for every occasion. This sturdy mower is perfect for mowing and trimming large lawns and gardens. HONDA HF 2417 HTE offers precise mowing with 102 cm blades & hydrostatic control. Enjoy the comfort of your seat while emptying the large 300 litre grass catcher bag with a single touch thanks to electric grass discharge system.

Performance so enjoyable you won't want to stop

HONDA HF 2417 HTE lawn mower does everything possible to meet your needs because we know that mowing the lawn is not a job, it's a passion. HONDA HF 2417 HTE lawn mower is robustly built with durability & strength in mind. Together with hydrostatically controlled transmissions for smooth & precise control, you'll care for your garden in the easiest & most pleasant way.

Maximum control

Comfort is at your fingertips on HONDA HF 2417 HTE with the new ergonomically designed steering wheel. HONDA HF 2417 HTE mower also features a steering knob that allows you to quickly turn steering wheel to operate & manoeuvre near trees & bushes.

Stay charged

Does your phone need charging? No problem when working with a HONDA HF 2417 HTE lawn mower. Just plug it in & place device in the convenient holder to charge it while you take care of your lawn.

First class comfort

Particular care & attention to detail has been paid to design of seat, which is now most

comfortable ever. Material is durable & soft to touch & this new design features folding armrests which further increases comfort level of HONDA HF 2417 HTE .

A secure pocket

Practicality is one of strengths of HONDA HF 2417 HTE lawn mower. This simple & practical accessory allows you to keep your mobile phone always at hand and avoid the risk of it accidentally falling while you are working.

Fluid performance

Optiflow® is unique airflow management system created by HONDA that offers superior collection performance with no more clogging of the collection duct. Versamow® is also present, a system that allows selective mulching. It allows mulching while mowing the grass, helping to create a natural fertilizer for a healthier lawn.

Lightening the load

The mower has an electronically operated collection bag that automatically releases the cut grass at once. Thus, you no longer need to move from driver's seat to empty collection bag.

Built to last

Anti-corrosion paint adds an elegant finish to sturdy steel cutting deck to give HONDA HF 2417 HTE a more pleasant appearance for longer.
