Product description:

Ride-on Lawnmower HONDA HF 2625 HME

HONDA HF 2625 HME lawn tractor designed & engineered with a new type of GXV690 engine even more docile, fluid that makes this lawn tractor easy to drive. Beautifully finished, HONDA HF 2625 HME is built to give you a beautiful lawn for every occasion. This sturdy mower is perfect for mowing & trimming large lawns & gardens. HONDA HF 2625 HME offers precise mowing with 122 cm blades, hydrostatic control and a 350 litre grass catcher bag.

Built for speed, the durable 690 cc HONDA HF 2625 HME is equipped with a constant speed maintenance system, comfortable seats & an anti-scalp cutting deck.

Performance so enjoyable you won't want to stop

HONDA HF 2625 HME lawn mower does everything possible to meet your needs because we know that mowing the lawn is not a job, it's a passion. HONDA HF 2625 HME lawn mower is robustly built with durability & strength in mind. Together with hydrostatically controlled transmissions for smooth & precise control, you'll care for your garden in easiest & most pleasant way.

Maximum control

Comfort is at your fingertips on HONDA HF 2625 HME lawn mower with the new ergonomically designed steering wheel. HONDA HF 2625 HME mower also features a steering knob that allows you to quickly turn the steering wheel to operate & manoeuvre near trees & bushes.

Stay charged

Does your phone need charging? No problem when working with a HONDA HF 2625 HME lawn mower. Just plug it in and place device in the convenient holder to charge it while you take care of your lawn.

First class comfort

Particular care and attention to detail has been paid to design of seat, which is now most comfortable ever. The material is durable & soft to touch & this new design features folding armrests which further increases the comfort level of HONDA HF 2625 HME.

A secure pocket

Practicality is one of strengths of HONDA HF 2625 HME lawn mower. This simple & practical accessory allows you to keep your mobile phone always at hand and avoid the risk of it accidentally falling while you are working.

Fluid performance

Optiflow® is the unique airflow management system created by HONDA that offers superior collection performance with no more clogging of the collection duct. Versamow® is also present, a system that allows selective mulching. It allows mulching while mowing the grass, helping to create a natural fertilizer for a healthier lawn.

Built to last

Anti-corrosion paint adds an elegant finish to the sturdy steel cutting deck to give HONDA HF 2625 HME lawn mower a more pleasant appearance for longer.
