## Product description:

DOMETIC PERFECTCHARGE MCA 2415 BATTERY CHARGER IU0U, 15 A, 24 V

DOMETIC PerfectCharge MCA 2415 with state-of-the-art charging technology, ultra-compact and lightweight design. The DOMETIC PerfectCharge MCA 2415 automatic charger is quick and easy to install. It can charge three batteries at the same time and can be used worldwide thanks to the input voltage range from 110 to 230 V. The DOMETIC PerfectCharge MCA 2415 automatic charger is ideal for frequent travellers around the world.

DOMETIC PerfectCharge MCA 2415 IU0U chargers guarantee 100% full charging. The battery should be fully charged at least once a month: there is no better way to take care of batteries and extend their life. Insufficient charging, on the other hand, can lead to sulphation and consequently premature ageing of the battery.

Special features of the DOMETIC PerfectCharge MCA 2415 IU0U battery charger

Gentle charging of 24 V batteries with optimised 6-stage IU0U charging technology

Very compact design, lightweight and easy to install

Sleep mode for silent charging at half power, ideal at night or in parking areas with low circuit protection

Supplied with bus interface for seamless integration into existing bus systems

Compatible with Dometic MPC 01 battery controller for perfect power management

Useful improvements: remote control, Hella battery sensor, temperature sensor

Technical Characteristics DOMETIC PerfectCharge MCA 2415 IU0U

Equipment: Battery charger, 230V connection cable

Product description: Battery charger IU0U, 15 A, 24 V

DIMENSIONS

Length 238 mm

Height 63 mm

Width 179 mm

Net weight 1.6 kg

ELECTRICAL

Input voltage: 110/230 V

Output current: 15.00 A

Input frequency 50/60 Hz

Supported Battery Type: Lead, AGM, Gel

IP Class IP20

PERFORMANCE

Energy efficiency ?90 %

Continuous power at 25 °C 450.00 W

Min. operating temperature -20.00 °C

Max. operating temperature 50.00 °C

You can view the full range of battery chargers in the category dedicated to them: chargers for cars, boats, garden tools and the most popular types of batteries.

**Product features:**

Frequency (Hz): 50 / 60

Voltage (V): 110 / 230

Protection degree: IP20
