

CUMMINS ONAN MDKDV SINGLE PHASE MARINE GENERATOR SET 19 KW AVR

Product description:

Super-silenced CUMMINS ONAN MARINE GENERATOR ONAN MDKDV 19 KW AVR

CUMMINS ONAN MDKDV single phase 19 KW marine generator with 1500 rpm motor. The CUMMINS ONAN MDKDV is designed with a soundproof enclosure that makes it **supersilenced**. The CUMMINS ONAN MDKDV marine generator is built with a Cummins 4-stroke diesel powered engine. The alternator of the CUMMINS ONAN MDKDV is 4-pole with insulation class H and **AVR** voltage regulator.

The AVR is an electronic device that regulates the alternating current coming from the alternator and transforms it into direct current.

So, by means of a voltage regulator, it is possible to convert the alternating current with time-varying frequency and voltage into direct current with constant voltage and thus allows to avoid and current surges.
