Product description:

Idromar SUPERMINI 60 watermaker

Idromar SUPERMINI 60 watermaker with an hourly fresh water production of 60 liters/hour and a daily production at 25°C of 1400 liters/day.

With a production of fresh water ranging from 65 to 180 l / h, they are the Idromar proposal for medium-small boats (from 15 to 25 meters), where intensive and continuous use is not always necessary. The watermaker in this range are compact, in the decomposable version and have in common for functionality, practicality and homogeneity of the materials.

One of the main characteristics that unites the Idromar SUPERMINI 60 with those of its range is the use of 316L stainless steel: from small details such as screws, bolts and nuts, the entire frame, the vessels containing the membranes and the head of the high pressure pump made of stainless steel to eliminate the phenomenon of corrosion.

The Idromar SUPERMINI 60 watermaker provides a practical and reliable source of fresh water to boaters with high supply requirements. The Idromar SUPERMINI 60 offers you absolute independence from water for various amusements such as extended trips, ocean crossings or fishing.

The Idromar SUPERMINI 60 watermaker systems are small and efficient able to adapt to the smallest spaces thanks to their complete decomposition.
