Product description:

GENERATOR CGM CX5000 Single-phase 5 KVA AVR

Generator CGM CX5000 single-phase 5 KVA with Honda engine powered by STAGE V gasoline at 3000 rpm, compact and easy to use, mounted on a fixed base with sturdy rain cover and vibration dampers. The CGM CX5000 generator set is composed of a Made in Italy Linz or NSM alternator, self-excited without brushes and with an AVR voltage regulator. The AVR regulator allows the voltage to be stabilized and does not ruin the connected sensitive devices. The CGM CX5000 generator set is equipped with manual recoil start and low fuel consumption, in fact it consumes only 1.6 liters/hour at 75% load. This generator set CX5000 is perfect for outdoor use such as for hobby use.

The CGM CX5000 generator set is part of the DELUXE series and is easily adaptable to various uses such as homes, mobile facilities, camping, hobbies, construction sites, etc.. The CX5000 generator set at 3000 rpm is suitable for emergency use only. It is not recommended to be used for more than 6 hours continuously and for more than 500 hours per year.
