

DOMETIC COOLAIR SP950T

Product description:

DOMETIC COOLAIR SP950T EVAPORATOR

DOMETIC COOLAIR SP950T is a super-thin roof evaporator for stationary truck split air conditioner providing 24 V air conditioning during parking.

At just 58 mm high, the Dometic CoolAir SP950T offers an ergonomic solution for truck cab refrigeration. Ideal for trucks with high cabs, roof spoilers or roof structures, this compact unit is discreet and so slim that it does not have a large impact on the overall height of the vehicle. The unit's white outer casing can be spray-painted to match the cabin enclosure and, using the additional installation kits, the unit can be removed easily and precisely.

The DOMETIC COOLAIR SP950T evaporator can be combined with the Dometic CoolAir SP950C compressor unit designed in case rooftop installation is impossible for stationary use offering an alternative solution to truck cab refrigeration.

TECHNICAL CHARACTERISTICS of the DOMETIC COOLAIR SP950T EVAPORATOR UNIT

Depth: 576.83 mm

Height: 182.12 mm

Width: 778 mm

Weight: 12kg

Input voltage (direct current): 24 V

Number of nozzles: 4

Cooling capacity (ISO 5151): 850 W

Power consumption - Cooling mode (ISO 5151): 530 W

Product features:

Refrigerating yield: 850 W

Length (mm): 576.83

Width (mm): 778

Height (mm): 182.12

Input voltage (V): 24 V

Power consumption (W): 530

Weight (Kg): 12
