

# DOMETIC FRESHAIR HDE12V

## Product description:

### DOMETIC FRESHAIR HDE12V AIR CONDITIONERS VEHICLES

DOMETIC FRESHAIR HDE12V is a roof air conditioner ideal for agricultural and industrial vehicles with driver cabs, such as cranes and forklifts. Its powerful energy-saving inverter technology ensures fast refrigeration.

The working environment sometimes gets very hot, and it is necessary to keep calm in the cab. With high temperatures and humidity, the driver's concentration and readiness quickly decreases, which is a great safety risk. Thanks to DOMETIC FRESHAIR HDE12V these risks are minimized. The innovative systems are specially designed to meet the special requirements of tractors, cranes, forklifts, forestry and agricultural vehicles and ensure a fast and reliable fresh breeze and efficient cab cooling.

All DOMETIC FRESHAIR HDE12V models are quiet and vibration-free, extremely compact and equipped with inverter technology to save batteries. Their lightweight construction does not significantly load the roof and does not change the vehicle's center of gravity. Thanks to the factory pre-filling with refrigerant, the installation of the air conditioners is quick and easy. DOMETIC FRESHAIR HDE roof air conditioners are available in a total of four different versions suitable for almost all special vehicles: 12V, 24V, 48V and even the 80 volt version can be integrated into almost all electrical systems in the vehicle. The purely electric compressor provides, depending on the model, a large cooling capacity from 2200 W (12 V) up to 3300 W (48 and 80 volts).

### TECHNICAL FEATURES DOMETIC FRESHAIR HDE12V AIR CONDITIONERS

Voltage: 12V

Input Current: 90 A

Minimum generator current: 100 A

Cooling power: 2200 W

---

Compressor: Electric  
Inverter technology: YES  
Air flow rate: 400 m<sup>2</sup>/h  
Refrigerant: R-134a  
Cabin size: 2 - 3 m<sup>3</sup>  
Depth: 766 mm  
Width: 537 mm  
Height: 213 mm  
Weight: 33kg

Are you looking for a product with different characteristics? [HERE](#) you can find the entire DOMETIC range and other specialized brands.

**Product features:**

Voltage (V): 12  
Current (A): 90  
Refrigerating yield: 2200W  
Air flow (m<sup>3</sup>/h): 400  
Length (mm): 766  
Width (mm): 537  
Height (mm): 213  
Compressor: Electric  
Weight (Kg): 33
