

HELVI EXPLORER 25

Product description:

HELVI EXPLORER25 Battery charger

HELVI EXPLORER25 is a new generation professional battery charger with inverter technology equipped with charge current selector, digital ammeter and voltmeter, thermostatic protection against overcurrent, protection against short circuits and polarity reversal, charge timer. HELVI EXPLORER25 also has battery charge voltage tester and alternator tester. The charging function of the HELVI EXPLORER25 battery charger is performed without output voltage peaks that can damage the electronic boards on board vehicles. Thanks to a dedicated software the HELVI EXPLORER25 is ideal for charging AGM, GEL, calcium and lead batteries mounted on modern vehicles.

The charging modes of the HELVI EXPLORER25 battery charger are:

- 1) Manual: choice of battery voltage, type of battery to be charged, maximum charging current, maximum charging time, desulphation procedure;
- 2) Automatic charging from pre-set parameters: the user has the possibility to save an ideal charging configuration to be recalled later in automatic mode;
- 3) Automatic: the battery charger will charge fully automatically after pressing the START button.

HELVI EXPLORER25 is perfect for charging batteries with a 12 V or 24 V voltage and a charging current of 25/12,5 A.

The HELVI EXPLORER25 battery charger can charge batteries for various types of vehicles such as cars, vans, trucks and boats. The main applications of the HELVI EXPLORER25 battery charger are in the automotive, domestic, custom, construction and agricultural sectors.

HELVI EXPLORER25 is a single-phase battery charger with 230 V power supply and 50/60 Hz frequency. HELVI EXPLORER25 has a nominal power of 350 W.

The nominal charging capacity of the HELVI EXPLORER25 charger is 380 Ah and has infinite charging positions.

HELVI EXPLORER25 is very compact and extremely light thanks to its weight of about 3 Kg.

Technical characteristics of the HELVI EXPLORER25 battery charger:

Phase type: Single-phase

Voltage: 230 V

Frequency: 50/60 Hz

Power: 350 W

Battery voltage: 12/24 V

Charging current: 25 A / 12.5 A

Charging capacity: 380 Ah 15h

Charging positions: ?

Length: 315 mm

Width: 115 mm

Height: 225 mm

Weight: 3.5 Kg

If you are looking for another product similar to the HELVI EXPLORER25 portable charger, then we recommend that you take a look at the entire range dedicated to battery chargers.

Product features:

Phase: Single phase

Frequency (Hz): 50 / 60

Voltage (V): 230

Power (W): 350

Adjustment positions: ?

Nominal current (A): 25 / 12.5

Charge capacity (Ah): 380

Battery voltage (V): 12 / 24

Charging voltage (V): 12 / 24

Length (mm): 315

Width (mm): 115

Height (mm): 270

Product type: Battery Charger

Weight (Kg): 3.5
