

# HONDA Outboard BF150AK2 XU SPORTY WHITE Extra Long Shaft Counter-rotating 110.3kW

**Product price:**

**11.535,00 € tax excluded**

## **Product description:**

HONDA OUTBOARD BF150AK2 XU SPORTY WHITE EXTRA LONG LEG

Honda BF150AK2 XU SPORTY WHITE are outboard engines perfect for professional use, they are reliable, compact and lightweight complete with PGM-Fi electronic fuel injection system.

Honda BF150AK2 XU are optimized to offer more power for a wide range of different boats. The decisive, smooth power this advanced technology offers is sure to put a smile on your face as you venture out on the water.

VTEC™ is an efficient system included in the Honda BF150AK2 XU outboard that keeps fuel consumption down while delivering an exciting increase in power. In the Honda BF150AK2 XU it works by using two different cams:

- 1) When the outboard is running at low rpm, the valves are operated by a cam less aggressively ensuring low fuel consumption and excellent performance.
- 2) As the outboard speed increases to 5000 rpm, the VTEC™ hydraulically operates a cam with a higher lift profile.

The Honda BF150AK2 XU SPORTY WHITE outboard features BLAST™ ready-to-start technology that gets the engine up to velocity in seconds. The BLAST™ (Boosted Low Speed Torque) delivers high torque even at low speeds by unleashing powerful thrust from startup.

Honda BF150AK2 XU is equipped with ECOmo's special poor-blend combustion control system ensures remarkable fuel economy right from revs and performance. Once at RPM, much less fuel is consumed. ECOmo is a poor-blend combustion control system provides significant fuel economy right through RPM and performance. Once at RPM, much less fuel is consumed. Maintaining this RPM and staying there gives the best results. Once you reach cruising speed, ECOmo automatically and intelligently adjusts the correct air/fuel ratio for that speed. Normally it

comes into operation in the green zone (shown on the dial) or when the green Eco light comes on (in case you have multifunctional indicators). Therefore, once you are in the green zone, you can save up to 20% of your fuel.

The Honda BF150AK2 XU SPORTY WHITE models are NMEA2000® compliant. There is no need to modify the wiring because everything is set up. Simply plug the engine into the CANbus network for full connectivity and control. Then the engine can be connected to other NMEA devices such as the navigation system, GPS, sonar devices, sounder and chartplotter.

## HONDA BF150AK2 XU SPORTY WHITE TECHNICAL FEATURES

Rated power (kW): 110.3  
Rated Power (Hp): 150  
Displacement: 2354 cm<sup>3</sup>  
Shaft length: Extra Long  
Dry weight (Kg) : 220  
Starting system: Electric  
Ignition system: Electronic PGM-IG  
Control type: Remote  
Engine trim and tilt: Electric  
Transom height (mm): 635  
Length (mm): 845  
Width (mm): 580  
Height (mm): 1790  
Bore x stroke (mm): 87 x 99  
Engine producer: Honda  
Engine type: DOHC, 4 strokes  
Cylinders: 4  
Full throttle range (rpm): 5000-6000  
Cooling system: Water  
Battery charging capacity (A): 40  
Propeller rotation: Standard

Are you looking for an outboard with different technical specifications? Here you can find the full range of Honda or other specialized brands.

The images are purely indicative.

### Product features:

Fuel: Gasoline  
Engine: DOHC, 4 tempi  
Ignition: Electronic PGM-IG

---

Starting system: Electric  
Engine capacity (cm<sup>3</sup>): 2354  
Number cylinders: 4  
Cylinders' position: In line  
Cooling: Water (with thermostat)  
Bore x stroke (mm): 87 x 99  
Reduction ratio: 2.14  
Rpm at full throttle (rpm): 5000 - 6000  
Appearance and engine lifting: Electric  
Transom height (mm): 635  
Net power (kW): 110.3  
Length (mm): 845  
Width (mm): 580  
Height (mm): 1790  
Dry weight (Kg): 220  
Shaft Length: X  
Controls: Remote
