

# AURORA TOWER LIGHT LAMBDA 55-L 4X75

**Product price:**

**1.850,00 € tax excluded**

## **Product description:**

### AURORA LAMBDA 55-L4X75

AURORA LAMBDA 55-L4X75 is a tower light with lifting handle equipped with 4 projectors capable of delivering a light output of 75W each.

AURORA LAMBDA 55-L4X75 is equipped with a galvanized steel lifting tower capable of extending up to a maximum height of 5.5 meters, including 4 feet of stabilization.

The tower is complete with a hand pump for raising and manual locking on each extension to avoid the rotation of the same and to ensure the maximum extension of the column even in the absence of air inside.

AURORA LAMBDA 55-L4X75 stands out for its performance, compactness and solidity, with its 4X75W halogen lights, able to compete with much bulkier lighting towers equipped with a halogen system.

This range of light towers does not come with a built-in generator set, making it the ideal product for those who already have a power source or connection to the electrical grid.

The lenses of the AURORA light tower are equipped with extremely special optics designed specifically for the civil engineering and construction sectors.

AURORA LAMBDA 55-L4X75 is suitable for a variety of large-scale construction work, maintenance repair, accident management and disaster relief work, high brightness lighting needs.

AURORA LAMBDA 55-L4X75 features extremely compact dimensions and square shape that optimize and facilitate its positioning and transportation on mobile vehicles. The base, with 4 adjustable and removable anti-tip stabilizers, guarantees a wind stability of 80 Km/h.

TECHNICAL CHARACTERISTICS AURORA LAMBDA 55-L4X75

Manufacturer: Green Power  
Projectors: 4 x 75W LED  
Lit Area: 1500 Square Meters  
Total Lumens: 36900 lm  
Max Height: 5. 5 Mt  
Rise: Manual  
Pole Sections: 4  
Manual Stabilizers: 4  
Rotation: NO  
Max Wind Resistance: 80 Km/h  
Transportation: Stationary  
Voltage: 230V  
Frequency: 50 Hz  
Closed dimensions: 335x335x2039 mm  
Open dimensions: 2210x2210x5500 mm  
Dry weight: 106 Kg

**Product features:**

Frequency (Hz): 50  
Voltage (V): 230  
Type of lamps: LED  
Lamps: 4 x 75W  
Telescopic pole: Galvanized steel  
Illuminated area (m<sup>2</sup>): 1500  
Total lumens (Lm): 36900  
Lifting System: Manual lifting system  
Maximum height (m): 5.5  
Open size (mm): 2210x2210x5500  
Closed size (mm): 335x335x2039  
With generator / Without generator: Without generator  
Transportability: Stationary  
Dry weight (Kg): 106
