Product description:

PORTABLE POWER STATION 2 KW INVERTER

The Portable Power Station 2 KW is a practical solution to have access, in any situation, to a source of energy without the hassle of carrying fuel and the worry of noise.

Unlike generator sets the Portable Station **does not require fuel** such as gasoline or diesel to power it. The Portable battery can be easily charged via a 25.5 V / 8 A charger or solar power or through your car, RV, truck, etc.

The Portable Power Station 2 KW is an excellent product to supply energy also thanks to its reduced size and weight (it only weighs 21,5 Kg).

Thanks to its compactness it can be easily transported where you need it most.

Another fundamental characteristic of this practical Portable Station is that, as it does not have a motor, **it does not make noise** thus respecting the surrounding environment and lowering noise emissions as well as the fact that it does not require any maintenance to be done.

This power station is equipped with a high-quality lithium battery, which offers long life and high reliability. In addition, it is equipped with advanced protection features, such as overcharge, short-circuit and overheat protection, to ensure safe use and prevent damage to connected devices.

The 2 kW portable battery is ideal for outdoor activities such as camping, hiking, RV or boat trips, as well as for emergency use during power outages. Its portability and ability to power essential devices make it a practical and convenient solution.
