Product description:

LARIUS GIOTTO LINER PLUS ROAD MARKING MACHINE

LARIUS GIOTTO LINER PLUS is an airless road marker equipped with a Yamaha petrol engine, capable of delivering a maximum power of 10 Hp.

LARIUS GIOTTO PLUS is a self-propelled vehicle conceived and designed to create road stripes on particularly winding paths with the presence of differences in level otherwise difficult to overcome.

The internal combustion engine, mounted on board the trolley of LARIUS GIOTTO PLUS, drives the alternative piston pump and the alternator used to charge the battery pack. Traction on the two front wheels is provided by an electric motor that allows the operator to move easily even on slopes of medium inclination.

The airless technology provides for the high-pressure spraying of the paint through a nozzle of centesimal dimensions as opposed to the traditional low-pressure spraying where the flow of paint is nebulized by the addition of air. Thanks to the airless technology LARIUS GIOTTO PLUS will allow you to have a clear and marked line thanks to the flat cut nozzle and without the jagged effects due to turbulence caused by air.

The paint dries quickly and with just one stroke the line is uniformly defined. LARIUS GIOTTO PLUS requires the use of filtered paint specifically for airless applications, which means homogeneous paint with a smooth, uniform consistency that will not crust or become gelatinous or thick.

With LARIUS GIOTTO PLUS, the paint adheres tenaciously to all types of flooring, with excellent visibility and resistance to wear caused by both traffic and weathering.

Each model is complete with:

- Filter with pressure gauge;
- High pressure hose Ø 1/4" connected M16x1.5 of 10 m;
- Suction and recirculation system;
- Manual airless gun AT250;
- 1 Super Fast Clean base;
- 3 Super Fast Clean nozzles 11-40 / 13-40 / 17-40
- Case with tools

TECHNICAL FEATURES LARIUS GIOTTO LINER PLUS:

Max flow rate: 7 l/m

Max pressure: 210 bar

Airless gun: N°1 AT 250

Feeding: Gasoline

Engine power: 5 Kw - 10 Hp

Engine: Yamaha

Nozzle size: 1 x 11-40 - 1 x 13-40 - 1 x 15-40

Colors: 1

Hatching: manual

Applications: Average road maintenance plotting work

Multipurpose: standard sprayer

Front drawbar with swivel and locking wheel

Length: 1600 mm

Height: 1000 mm

Width: 750 mm

Vibrations: $Leq(8h)=1.5 \text{ m/s}^2$

Dry weight: 200 Kg

Product features:

Fuel: Gasoline

Engine: Yamaha

Power (KW): 5

Maximum output capacity (Lt/min): 7

Pressure (bars): 210

Length (mm): 1600

Width (mm): 750

Height (mm): 1000

Dry weight (Kg): 200
