

# LARIUS ECO K2 SEMOVENT ROAD MARKER

**Product price:**

**13.647,90 € tax excluded**

## **Product description:**

### LARIUS ECO K2 ROAD TRACKER

LARIUS ECO K2 is an airless road marker equipped with a completely green electric motor, capable of delivering a maximum power of 1 KW.

The LARIUS ECO K2 airless tracer is defined as a "piston pump", a device used for high-pressure coating without the aid of air (hence the term "airless").

The pump is driven by a motor coupled to a gear reducer. An eccentric shaft and a connecting rod allow the LARIUS ECO K2 to obtain the reciprocating motion necessary for the operation of the piston of the "pumping group". The movement of the piston creates a depression. The product is sucked in, pushed towards the pump outlet and sent through the high pressure hose to the gun. A mechanical device allows to regulate and control the pressure of the material exiting the pump and a safety valve controls the overpressure ensuring the absolute reliability of the equipment.

Thanks to the airless technology LARIUS ECO K2 will allow you to have a clear and marked line thanks to the flat cut nozzle and without the jagged effects due to turbulence caused by air.

LARIUS ECO K2 uses non-pre-mixed paints, which allows for a 30% higher yield compared to standard marking. Each model is also an airless sprayer that can also be used in the construction industry with washable products, enamels, breathable paints and resins for flooring.

Each model is complete with:

- Filter with manometer;
- 1 High pressure hose Ø 1/4" connected M16x1.5 of 15 m;
- 1 suction / recirculation system
- 1 manual airless gun AT260;
- 1 Base Super Fast Clean

- Base Super Fast Clean 11-40 / 13-14 / 1-40
- 1 pole with flashing light;
- 1 speed control panel
- Battery charger
- Case with tools

## TECHNICAL FEATURES LARIUS ECO K2

Combustion engine power: 1 KW

Traction engine power: 0.6 KW

Max flow rate: 2. 2 l/min

Motor: Electric

Max pressure: 200 bar

Power supply: 24 V

Colors: 1

Length: 2000 mm

Height: 1100 mm

Width: 800 mm

Dry weight: 185 Kg

Weight with batteries: 260 kg

Are you looking for a road tracker with different characteristics? Here you can find the full range of LARIUS or other brands specializing in this field.

Images and technical data are not binding and may be subject to revisions by the manufacturer.

### **Product features:**

Pressure (bars): 200

Length (mm): 175

Width (mm): 1000

Height (mm): 1240

Dry weight (Kg): 260

Maximum paint flow rate (Lt/min): 2.2

Number paint colors: 1
