Product description:

LARIUS EXCALIBUR PLUS ROAD TRACKER

LARIUS EXCALIBUR PLUS is an airless road tracer equipped with a Yamaha gasoline engine, capable of delivering a maximum power of 5.5 Hp.

LARIUS EXCALIBUR PLUS is referred to as a "piston pump." A piston pump is a device used for high-pressure painting without the aid of air (hence the term "airless"). The internal combustion engine, which is mounted on board the LARIUS EXCALIBUR PLUS, drives the reciprocating piston pump. An eccentric shaft and a connecting rod provide the reciprocating motion necessary for the operation of the piston of the "pumping unit". The movement of the piston creates a depression.

The product is sucked, pushed towards the exit of the LARIUS EXCALIBUR PLUS and sent through the high pressure hose to the gun. An electronic device allows to regulate and control the pressure of the material coming out of the pump. A safety valve against overpressure guarantees the absolute reliability of the equipment.

LARIUS EXCALIBUR PLUS allows the marking and the maintenance of all types of stripes related to state roads, highways, crosswalks, parking lots, squares and all that is required by the code of the road in matter of horizontal signage. Airless operation striping has many proven benefits compared to strippers with pressurized tanks that are obsolete compared to airless technology.

The paint dries quickly and with just one pass the line is uniformly defined. LARIUS EXCALIBUR PLUS requires the use of filtered paint specifically for airless applications, which in itself means homogeneous paint of smooth and uniform consistency that will not crust, nor become gelatinous or thick.

Each model comes complete with:

- Filter with manometer;
- 1 High Pressure Hose Ø 1/4" M16x1.5 10 m long;
- 1 Recirculation Hose;
- 1 Manual Airless Spray Gun AT260;
- 3 Super Fast Clean 11-40 / 13-40 / 15-40 Base
- Carrying Case with tools

TECHNICAL FEATURES LARIUS EXCALIBUR PLUS

Combustion engine power: 5 kW - 5.5 Hp

Max flow rate: 2 l/min

Power supply: Gasoline

Motor: Yamaha

Max pressure: 210 bar

Airless nozzle: AT 250

Specified nozzle sizes: 11x40 - 13x40 - 15x40

Colors: 1

Manual spray: standard

Applications: Medium road maintenance plotting jobs

Multipurpose sprayer: standard

Vibrations $Leq(8h)=1.8$ m/s²

Length: 160 cm

Height: 110 cm

Width: 90 cm

Weight: 105 kg

Are you looking for a street tracker with different features? Here you can find the full range of LARIUS or other brands specializing in the field.

Images and technical data are not binding and may be subject to revisions by the manufacturer.

Product features:

Fuel: Gasoline

Pressure (bars): 210

Tank capacity (L): 20, 50, 30+30

Length (mm): 1400

Width (mm): 600

Height (mm): 1050

Dry weight (Kg): 80

Drive: Manual

Self propelled: NO

Maximum paint flow rate (Lt/min): 2

Number paint colors: 1

Number of guns supported: 1

Engine manufacturer: Yamaha
