

VTE PAGURO 4MY

Product price:

6.351,00 € tax excluded

Product description:

VTE PAGURO 4MY super-silenced 4 KVA marine generator set

PAGURO VTE 4MY 4 KVA single-phase marine generator set, with Yanmar diesel-powered 3000 rpm engine; engine cooling system with stainless steel water/air cooler and air alternator cooling. All parts in contact with seawater are made of 316 L stainless steel.

Thanks to the water-cooling and double anti-vibration system, vibrations are reduced to a minimum, making the VTE PAGURO marine 4MY supersilenced and among the lowest noise-emitting marine generators in its class.

The compact and space-saving VTE PAGURO 4MY marine generator set is suitable for use on small boats, the VTE PAGURO marine generator 4MY is ready to give you all the power you need in complete peace of mind.

Engine

The diesel-powered Yanmar engine makes the PAGURO 4MY marine generator efficient and reliable.

The PAGURO marine generator VTE 4MY is designed with a stainless steel water/air heat exchanger.

Alternator

The alternator of the PAGURO generator VTE 4MY is a permanent magnet (PMG) with class H insulation and is small in size and weight. The control electronics create a clean waveform, making it excellent for powering sensitive electronic devices that fear voltage and current surges.

It is also air-cooled.

Included with the alternator is the battery charger for the dedicated 12 V / 8 A starter battery.

Soundproofing capsule and double anti-vibration system

The reinforced fibreglass capsule with composite layering and high-density soundproofing

material coating make this Paguro generator 4MY generator set one of the most silent compared to its competitors.

The capsule allows installation even in cramped spaces, thanks to its composition: two upper parts and one lower part.

Finally, the dual anti-vibration system, internal with 4 soft mounts and external with 4 semi-elastic mounts, makes the PAGURO generator VTE 4MY stable even in less calm waters and silenced, so you can enjoy your navigation without additional worries.

VTE PAGURO marine generator 4MY

Phase type: Single-phase

Single-phase continuous use power: 4 KVA

Single-phase continuous use power: 3.5 KW

Frequency: 50 HZ

Voltage: 230 V

Fuel: Diesel

Engine speed: 3000 rpm

Engine: Yanmar L70

Starter: Electric

Length: 470 mm

Width: 420 mm

Height: 520 mm

Dry weight: 65 kg

Supersilenced

If you are looking for another 4MY marine genset or another marine product besides the PAGURO 4SY, you can consult our link [HERE](#).

Images and technical data are not binding.

Product features:

Phase: Single phase

Continuous power single phase (KW): 3.5

Continuous power single phase (KVA): 4

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Yanmar L70

Engine rpm (rpm): 3000

Starting system: Electric

Number cylinders: 1

Cooling: Heat exchanger air/water
Alternator: Permanent magnets
Consumption (L/h): 0.35
Acoustic pressure: 53 dB(A)
Length (mm): 470
Width (mm): 420
Height (mm): 520
Dry weight (Kg): 65
Silenced: Yes
Super silenced: Yes
Product type: Generator
Engine manufacturer: Yanmar
