Product description:

HONDA Inflatable boat T20 SE3

Honda Inflatable Boat T20 SE3 is a pliner dinghy that can be equipped with Honda engine; this dinghy can be combined with an outboard for a maximum power of 4.3 hp.

The T20 SE3 tender is a portable, lightweight inflatable boat and is perfect for coastal exploration, fishing or simply offshore excursions. With a new bow roller design, high quality durable PVC body and larger diameter tubulars for smoother sailing, the new range of **Honwave tenders** is perfect for lake or sea excursions.

With a Honda marine engine, it will be even easier to go to sea thanks to the T20 SE3 tender. This is because the tender's larger diameter tubulars ensure excellent buoyancy and **stability**.

Honda offers several types of inflatable boats and tenders, and each of them has a different length and is suitable for different engines and number of passengers. For example, the Honda T20 SE3 tender has an overall length of 202 cm and can carry up to 2 adults.

Honda inflatable boats are designed to withstand whatever they may encounter on the open sea. This is true for any type of climate and sea, in fact even the Honda T20 SE3 inflatable boat is protected against everything. The Honda T20 SE3 inflatable boat is **made from high-quality European PVC** - simply the best available - which makes this dinghy not only durable but also lightweight.

The KIT HONDA TENDER T20 SE3 INCLUDES:

- Carry bag
- Puncture repair kit
- Pressure gauge
- Oars

- Foot pump
- Boat bench
