Product description:

HONDA Gommone T30 AE3

Honda Inflatable T30 AE3 is an aluminum dinghy tender that can be equipped with Honda outboard motor; this tender can be combined with an outboard for a maximum power of 15 hp.

HONDA TENDER T30 AE3 is a portable, lightweight dinghy and is perfect for coastal exploration, fishing or simply offshore excursions. With a new bow roller design, a high-quality durable PVC body, and larger diameter tubulars for smoother sailing, the new range of **Honwave Tenderers** is perfect for lake or sea excursions.

With a Honda outboard, it will be even easier to go to sea thanks to the HONDA TENDER T30 AE3. That's because the tender's oversized diameter tubulars ensure excellent flotation and **stability**. Honda quality in both engines and dinghies always makes a difference in boating.

Honda offers different types of dinghies and tenders and each of them has a different length and is suitable for different outboards and number of passengers. For example the HONDA TENDER T30 AE3 has an overall length of 297 cm and can carry up to 4 adults with inside 3 compartments plus the strap. If you take your fun a little more seriously, this inflatable boat with aluminum deck is a super tough option.

Honda inflatable boats are designed to withstand whatever they may encounter in the open ocean. This applies to all types of weather and seas, in fact even the Honda T30 AE3 inflatable boat is protected against it all. The HONDA TENDER T30 AE3 is **made from high quality European PVC**.

The KIT HONDA TENDER T30 AE3 INCLUDES:

- Carry bag
- Puncture repair kit

- Pressure gauge
- Oars
- Foot pump
- Boat bench
