Product description:

HONDA Inflatable T40 AE3

Honda Inflatable Dinghy T40 AE3 is an aluminum dinghy that can be equipped with Honda outboard motor; this dinghy can be combined with an outboard for a maximum power of 20 hp.

The HONDA TENDER T40 AE3 is a portable, lightweight dinghy and is perfect for coastal exploration, fishing or simply offshore excursions. With a new bow roller design, a high quality durable PVC body and larger diameter tubulars for smoother sailing, the new range of **Honwave tenders** is perfect for lake or sea excursions.

With a Honda outboard, it will be even easier to go to sea thanks to the T40 AE3 tender. This is because the tender's larger diameter tubulars ensure excellent flotation and **stability**.

The Honda range offers several types of inflatable boats and tenders, and each of them has a different length and is suitable for different outboards and number of passengers. For example, the HONDA TENDER T40 AE3 with aluminum dunnage has an overall length of 395 cm and can carry up to 7 adults with inside 3 compartments plus the strap.

Honda inflatable boats are designed to withstand whatever they may encounter on the open sea. This applies to all types of weather and seas, in fact even the Honda T40 AE3 inflatable boat is protected against everything. The Honda T40 AE3 is **made from high-quality European PVC**. In addition to being made from European PVC, Honda inflatable boats also have thick planking around the entire boat.

The HONDA TENDER T40 AE3 KIT INCLUDES:

- Carry bag
- Puncture repair kit
- Pressure gauge

- Oars
- Foot pump
- Boat bench
