

GENERAC ATB-C1 ANTI-THEFT BOX 115 L

Product description:

GENERAC ATB-C1 ANTI-THEFT BOX 115 L

GENERAC ATB-C1 anti theft box is ideal for all those who must always have their tools at hand and at the same time keep them safe.

The GENERAC ATB-C1 is equipped with an upper door, the only access to the inside of the box. GENERAC ATB-C1 is compact but extremely capacious, thanks to its 115 l of internal volume.

The GENERAC ATB-C1 is made of 2mm thick sheet metal, then painted with oven-baked polyurethane powder coating.

The double lock security system does not allow the opening of the box in any way if not cutting in two the entire box.

The GENERAC ATB-C1 anti theft box cannot be broken into in any way due to the lack of external padlocks and the impossibility of passing a crowbar through the slots of the chest.

The structure of the work crate is equipped with lifting pockets and a raised platform that allows it to be both nimbly forked by a transpallet or forklift and lifted by means of a crane, allowing you to easily transport all your equipment.
