

MASE MARINER 960 S SILENCED SINGLE- PHASE MARINE GENERATOR 9.6 KW EPA

Product description:

MASE MARINER960S SILENCED SINGLE-PHASE MARINE GENERATOR 9.6KW EPA

MASE MARINER960S single phase silenced marine generator is equipped with a KUBOTA Z722 engine with **EPA emissions standard**, powered by diesel capable of delivering a maximum power of 9.6 KW at 3600 rpm.

The MASE MARINER960S marine generator is built with and air-cooled, self-excited synchronous alternator, is extremely compact and powerful, suitable for small boats as well.

The MASE MARINER960S allows easy access for maintenance of the fuel and lubrication systems, sea water pump, air filter, oil filter and fuel. It is also equipped with safety systems of auto stop for low oil pressure and high engine temperature or exhaust gas.

The alternator of the MASE MARINER960S is synchronous 2-pole, self-regulated, self-excited, brushless, which in conjunction with the powerful engine KUBOTA can deliver a maximum power of 9.6KW. The rotor and the stator are coated with epoxy paint to prevent the attack of atmospheric agents, in addition it is equipped with safety systems of auto stop in case of high temperatures detected on the windings.

The marine generator MASE MARINER960S is equipped with a soundproof cabin that makes it super silenced, with a sound emission of 57dB(A) at a distance of 7 m. The painted aluminum soundproofing cabin is extremely lightweight and of very high resistance to external agents.

The MASE MARINER960S marine generator has **EPA certification** valid only **for the American market**.

TECHNICAL FEATURES MASE MARINER960S

Phase Type: Single Phase
Maximum Power: 9.6KW
Fuel: Diesel
Voltage: 120 - 240 V
Frequency: 60 Hz
Engine: KUBOTA Z722, 4 Stroke
Emission Standard: EPA
Mechanical Power: 20 Hp
Number of Cylinders: 3
Displacement: 719 cc
RPM Controller: Mechanical Centrifugal
Engine RPM: 3600 rpm
Fuel Consumption: 3.9 l/h
Acoustic pressure: 56dB(A) @ 7 m
Length: 730 mm
Width: 468 mm
Height: 555 mm
Weight: 185 Kg

Product features:

Phase: Single phase
Maximum power single phase (KW): 9.6
Fuel: Diesel
Frequency (Hz): 60
Voltage (V): 120 / 240
Engine: KUBOTA D722, 4 stroke
Emissions Regulations: EPA
Engine rpm (rpm): 3600
Speed governor: Centrifugal, mechanical
Engine capacity (cm³): 719
Number cylinders: 3
Cooling: Air
Inyección : Indirect
Alternator: Synchronous, self-excited
Poles: 2

Lubrication: Forced
Acoustic pressure: 56 dB(A) at 7 m
Length (mm): 730
Width (mm): 468
Height (mm): 555
Dry weight (Kg): 185
Inverter: No
AVR: No
Compound: No
Silenced: Yes
Super silenced: Yes
Product type: Generator
Engine manufacturer: Kubota
