Product description:

MASE MARINER 2200K MARINE GENERATOR SINGLE PHASE 22KW

MASE MARINER2200K single phase marine generator is equipped with a KUBOTA V2403 diesel engine capable of delivering a maximum power of 22KW at 1500 rpm complete with AVR voltage regulator.

The alternator of the MASE MARINER2200K is synchronous 4-pole, self-regulated, self-excited, brushless, which in conjunction with the powerful engine KUBOTA can deliver a maximum power of 22KW. The marine generator MASE MARINER2200K is built with synchronous alternator, self-excited without brushes with air cooling, is extremely compact and powerful, suitable for small boats. The alternator is complete with AVR voltage regulator that ensures the stability of the voltage delivered by the generator, delivering current like the one at home.

The MASE MARINER2200K CBU control module has a new design, the latest technology, a large display and micro-buttons for quick navigation of menus, start and stop procedures; IP54 protection rating. Very compact, 86x124mm and equipped with 10mts shielded cable, the CBU module has multiple functions for a complete monitoring of the marine generator MASE MARINER2200K:

- ON/OFF/START/STOP/MENU controls.
- Digital hour meter, Output voltage, group battery, external battery pack, frequency, maintenance interval, list of last 10 alarms with time.
- 13 different alarm icons can be displayed.
- 485 Mod-Bus connector to monitor the group from the main control panel of the boat.
