

## MASE MARINER 3406 K SINGLE PHASE MARINE GENERATOR 34KW EPA

## **Product description:**

MASE MARINER 3406 K SINGLE-PHASE MARINE GENERATOR 34KW EPA

MASE MARINER3406K single phase marine generator is equipped with a KUBOTA V3300 engine that complies with EPA regulations, powered by diesel capable of delivering a maximum power of 34 KW at 1800 rpm.

The MASE MARINER3406K is built with and synchronous alternator, self-excited with air cooling, is extremely compact and powerful, suitable even on small boats.

The MASE MARINER3406K alternator is a 4-pole synchronous, self-regulated, self-excited, brushless alternator, which in combination with the powerful KUBOTA engine can deliver a maximum power of 34KW. An AVR voltage regulator is indispensable to make the latest generation of synchronous generators work at their best. We are talking about alternating current electric motors, whose rotation speed is synchronized with the electric frequency. The voltage regulator, applied to synchronous current generators, has as its objective the maintenance of a constant operation of the machine, in its regime of greater efficiency.

The cooling of the engine of the MASE MARINER3406K takes place by circulating coolant in a closed circuit. The system is composed of a cupronickel exchanger, inside of which the heat exchange between coolant and sea water takes place. Two separate pumps provide for the circulation of the coolant and seawater in the generator MASE MARINER3406K.

The MASE MARINER3406K Marine Generator has **EPA Certification** and is valid only **for the US market**.

TECHNICAL FEATURES MASE MARINER3406K

Phase Type: Single Phase Maximum Power: 34 KW

Fuel: Diesel

Voltage: 120 - 240 V Frequency: 60 Hz

Alternator: Synchronous, 4 Poles Brushless

Voltage Regulator: AVR

Engine: KUBOTA V3300, 4 Stroke

Emission Regulation: EPA Mechanical Power: 47. 3 Hp

Number of Cylinders: 4 Displacement: 3318 cc Rev Regulator: Electronic Engine RPM: 1800 rpm Fuel Consumption: 13 l/h

Length: 1250 mm Width: 630 mm Height: 820 mm Dry Weight: 620 Kg

Images and technical data are not binding.

## **Product features:**

Phase: Single phase

Maximum power single phase (KW): 34

Fuel: Diesel

Frequency (Hz): 60 Voltage (V): 120 / 240 Engine: KUBOTA V3300 Emissions Regulations: EPA Engine rpm (rpm): 1800 Speed governor: Electronic

Engine capacity (cm³): 3318 Number cylinders: 4 Inyección: Indirect

Alternator: Synchronous, self-excited

Poles: 4

Consumption (L/h): 13 at 100% of the load

Length (mm): 1250 Width (mm): 630 Height (mm): 820

Dry weight (Kg): 620

Inverter: No AVR: Yes

Compound: No Silenced: No

Super silenced: No Voltage regulator: AVR
