Product description:

MOSA TF II9 Y L-4x350 LED LIGHT TOWER WITH GENERATOR 9KW SINGLE-PHASE STAGE V

MOSA TF II9 Y L-4x350 LED is a light tower with a generator equipped with a KOHLER KDW 1003 Stage V Diesel engine, with 4 floodlights capable of delivering 350W light output each.

MOSA TF II9 Y L-4x350 LED is equipped with a KOHLER KDW 1003 Stage V engine, fully compliant with the latest European emission regulations. MOSA TF II9 Y L-4x350 LED is equipped with a hydraulic lifting system, capable of raising the tower to a height of 9 m. Thanks to the 4 LED lamps, the MOSA Light Tower can illuminate an area of 4800 square meters with a maximum luminous intensity of 223820 lm.

The safety stop stops the descent at a safe height that avoids the risk of collision with the lights during the normal descent phase or in case of sudden breakage of the telescopic ropes or the automatic brake of the lifting winch.

MOSA TF II9 Y L-4x350 LED is characterized by extremely compact dimensions and squared shape that optimize and facilitate its positioning and transport on mobile means.
