

FLEXIBLE EXHAUST PIPE

D. 40 mm 6 meters + 5 HOSE CLAMPS

Product price:

120,00 € tax excluded

Product description:

FLEXIBLE EXHAUST PIPE D. 40 mm 6 meters + 5 HOSE CLAMPS

Kit for exhaust fumes from combustion engine generator sets.

The kit consists of:

- 6 metres of flexible galvanised metal muffler pipe, diameter 40 mm and length 2 metres;
- 5 metal hose clamps.

Also available with a hose length of 2 metres.

The function of the hoses is to absorb vibrations from the engine and the rest of the exhaust.

They can be of various sizes, ranging from a minimum of 10 mm to a maximum of 400 mm in Zinc or stainless steel.

The flexible muffler pipes proposed are produced in Italy with a double crimping system to ensure maximum tightness and durability.

In addition to the adaptability of these products, we guarantee the quality of the raw materials used to manufacture them, and our technical department checks to ensure that the product is actually functional.

Images and technical data are not binding.

Product features:

Fluid type: Exhaust gas

Internal diameter (mm): 40

Material: Inner galvanized steel

Tube's lenght (Mt.):

Product type: Smoke Exhaust Kit

Weight (Kg): 2.5
