## Product description:

### GENERATOR SINGLE-PHASE / THREE-PHASE STAGEV 19,2KVA AVR

Generator single-phase / three-phase of 19,2 KVA with BRIGGS & STRATTON engine powered by STAGEV Gasoline at 3000 rpm, compact and easy to use.

The generator consists of an NSM Made in Italy, self-excited brushless alternator with **AVR** voltage regulator. The generator is equipped with electric start with battery that allows a practical and fast use even when cold. The generator has a low fuel consumption, in fact it consumes only 6,5 liters/hour at 75% of the load.

The generator is not supplied with feet as these are supplied separately.

The generator is part of the QUIET series because thanks to the hood has low noise emissions and is supersilenced. This generator is 3000 RPM, with BRIGGS & STRATTON engine with electric start with key and battery.

## STAGEV EMISSIONS REGULATION

The generator is equipped with a "mobile" STAGEV motorization, as required by the European Regulation 2016/1628. These new engines make it possible to exponentially reduce the emissions of particulate matter and nitrogen oxides delivered by the generator into the environment, and ensure a reduction in the environmental impact of 200% compared to standard engines.
