Product description:

LIGHT TOWER GLOBE 33000 Lm LED - RENTAL

LIGHT TOWER 33000 Lm equipped with 6 LED lamps capable of delivering a total light power of 250W, thanks to which it is able to illuminate an area of 1963 m².

The 33000 lumen Light Tower Light globe is a perfect lighting fixture for night work and on-site interventions, such as temporary site lighting, industrial maintenance or emergency lighting.

Equipped with a multi-lamp system that allows the balloon to continue operating in the event of a lamp failure.

The Light Tower Globe is supplied complete with a telescopic pole in chromed steel resistant to corrosion and rust. The telescopic pole can reach a height of 5.3 m and can support a maximum weight of 40 kg, in addition it gives excellent stability to the lightglobe even in unfavorable conditions with wind up to 100 Km / h.

The lightglobe line is equipped with wifi and bluetooth connection, it can be controlled via a dedicated app, downloadable on both IOS and android, giving you the possibility to make different adjustments including light intensity, flashing light and many other adjustments .

The rental service in Turin and Italy

Hiring a generator has never been easier: choose the product you want to rent and FILL OUT THE FORM .

Our specialized staff will answer you immediately with the best offer for you!

The material available for hire can be shipped all over Italy and is always ready for action: our team of technicians in fact always keeps it in perfect operating conditions.
