

GENERATOR SILENCED 350 KVA WITH AUTOMATIC CONTROL PANEL

Product description:

Single/three-phase 350KVA generator super-silenced with automatic control panel

Single/three phase 350KVA generator with a 1500 rpm FPT diesel engine, compact and easy to use, mounted on a fixed base. This generator is equipped with a soundproofed cabin made of structural steel plate, weatherproofing and an interior lining made of soundproofing material with high noise reduction, which makes it supersilenced.

This generator has a Stamford, Mecc Alte or Marelli Motori, self-excited, brushless alternator with AVR voltage regulator. It is equipped with an electric starter with a low fuel consumption battery, consuming only 55 litres per hour at 75% load. It also has a control panel with automatic control unit and terminal box for automatic start-up.

This generator is perfect for use outdoors, such as on construction sites.
