

GENERATOR SINGLEPHASE 3,3KVA 3300I

Product price:

712,50 € tax excluded

Product description:

GENERATOR 3300I SINGLEPHASE 3,3KVA 3KW SILENCED INVERTER

The **Generator SinglePhase 3,3KVA 3KW 3300I Silenced inverter** è powered by a gasoline engine, with engine produced in Italy and guaranteed in every way, the 3300I is ideal for both professional and hobbyist use.

The strengths of the generator 3300I are: the inverter technology that allows to reduce consumption and noise as well as offering a high level of functionality, **lightweight only 30kg**, compactness Length: 560 mm Width: 310 mm Height: 490 mm, ease of use and modern design. The Generator SinglePhase 3,3KVA è equipped with a manual rope start very easy to start and mounts a 4-stroke engine to optimize performance, **consumes only 1.2Lt/h** in small size.

The Generator 3300I SinglePhase 3,3KVA 3KW it's has been specially developed for camping, caravans, houses, and hobby applications, but also for work being very robust and handy, being able to use all its power of with **inverter. technology**

The range Generators 3300I inverter

The generator 3300I is a product that respects a high quality standard and guarantees a high level of reliability. For this reason the Generator SinglePhase 3,3KVA is able to ensure 12 months warranty and availability of spare parts all over the world.

The strengths of the generator 3300I are: the high quality, the components, the lightness, the compactness, the ease of use and also the modern design.

This Generator SinglePhase 3,3KVA is specially developed for camping, caravans, home use, hobby, easy to use and reliable.

The advantages of Inverter technology

When the unit is turned on the engine idles, as soon as more electricity is drawn at a certain point, the engine automatically accelerates to cover the required electricity consumption.

This results in a significant reduction in fuel consumption! In addition, all Generator SinglePhase 3,3KVA with inverter technology also have the automatic voltage regulator AVR.

Technical Features of the Generator SinglePhase 3,3KVA 3300I

Maximum Power Single-phase: 3 KW

Maximum Power Single-phase: 3.3 KVA

Fuel: Gasoline

Voltage: 230V

Frequency: 50Hz

Starting system: Recoil

Consumption: 1. 2 Lt/h

Length: 560mm

Width: 310mm

Height: 490mm

Weight: 30kg

Super silenced

Inverter

If you want a different generator you can see the following models always of the same Silenced Inverter Range.

Images and technical data not binding.

Product features:

Phase: Single phase

Maximum power single phase (KW): 3

Maximum power single phase (KVA): 3.3

Fuel: Gasoline

Frequency (Hz): 50

Voltage (V): 230

Sockets configuration: 2 Schuko

Emissions Regulations: Stationary Use

Engine rpm (rpm): 3000

Starting system: Manual recoil

Number cylinders: 1

Fuel tank capacity (L): 6.5
Consumption (L/h): 1.2
Running time (h): 5.42
Acoustic pressure: 62 dB(A) at 7 m
Length (mm): 560
Width (mm): 310
Height (mm): 490
Dry weight (Kg): 30
Silenced: Yes
Super silenced: Yes
Product type: Generator
ATS Switch device : No
Voltage regulator: Inverter
