FIRMAN SDG30FS GENERATOR 33KVA THREE-PHASE SUPER SILENT

The FIRMAN SDG30FS three-phase generating set is equipped with a FIRMAN FD4100DY diesel-powered engine, capable of delivering a power of 33KVA complete with a **Compound voltage regulator** and automatic control panel.

This generator is equipped with **electric, manual or automatic start** with a 12 V battery, and is equipped with a **FIRMAN HGM4020N control unit** which allows you to view all the electrical parameters of the engine and generator, of the functions, status of the generating set, managing the entire group and displaying, if any, system errors or alarms. The groupset has low fuel consumption, in fact it consumes only 5.6 litres/hour at 75% of the load, combined with a large tank of 65 liters of maximum capacity, it will give you an autonomy of around 11 hours.

This group is equipped with a soundproofed cabin, made of 20/10 thick carbon steel, folded and electro-welded, with protection class IP23 and which can be opened in two sections. This cabin allows an incredible reduction of noise pollution, to the point of making it **supersilenced**. The generator set guarantees efficient and silent operation thanks to the FIRMAN FD490DY engine, which allows for the delivery of a maximum power of 33KVA.
