## Product description:

WHISPER W-SQ 22,5 MOBILE GENERATOR 22KW SINGLE-PHASE/THREE-PHASE AVR

WHISPER W-SQ 22,5 Single-phase / three-phase mobile generator with Mitsubishi S4S engine powered by diesel, delivers a power of 22KW, **complete with AVR and EBS voltage regulator.**

The WHISPER W-SQ 22,5 vehicular generator comes standard with a robust acoustic case with anti-corrosion metal plating and heavy insulating material for optimal sound reduction. The hearing protector features easy access to all sides of the generator and offers access to all maintenance-related components from one side only.

Thanks to the AVR technology electrical stabilizer that works at very low distortion, WHISPER W-SQ 22,5 delivers constant current loads without voltage peaks that could damage electrical and electronic devices. A further advantage of the inverter is that it works with variable motor revolutions, based on the need for the current to be supplied, optimizing fuel consumption, gas emissions and wear of the mechanical parts in the best possible way.

## VOLTAGE REGULATOR

WHISPER W-SQ 22,5 is equipped with AVR which, mounted on an alternator, allows a generator set or current generator to stabilize the output voltage and does not damage the connected sensitive electronic devices. In the modern market, inverters have made a huge step forward in terms of technology and performance; for this reason the best brands of generator sets and alternators in the world are moving along this line of thought.
