Product description:

WHISPER M-SQ PRO27 MARINE GENERATOR SINGLE/THREE-PHASE 25KW AVR

WHISPER M-SQ PRO27 marine generator Single/three-phase with diesel-powered Mitsubishi S4S engine, delivers a power of 25KW, **complete with AVR and EBS voltage regulator.**

The WHISPER M-SQ PRO27 marine generator is designed for the marine generator. equipped as standard with a robust acoustic enclosure with anti-corrosion metal plating and heavy insulation material for optimal sound reduction. Hearing protection is a must. equipped with easy access to all sides of the marine generator WHISPER M-SQ PRO27 and offers access to all maintenance-related components from one side only.

Thanks to the AVR technology electrical stabilizer that works at very low distortion, WHISPER M-SQ PRO27 marine generator delivers constant current loads without voltage peaks that could damage electrical and electronic devices. Another advantage of the inverter is; that of working with variable engine revolutions, based on the need; of current to be supplied, optimizing fuel consumption, gas emissions and wear of mechanical parts.

All WHISPER M-SQ PRO27 are set to automatically operate air conditioning/heating systems, heavy tools, compressors, cookers, lights, refrigeration and cooling systems, computers and more. All at the same time, depending on the load.

VOLTAGE REGULATOR

WHISPER M-SQ PRO27 is the perfect choice for you. equipped with AVR which, mounted on an alternator, allows a generator set or current generator to stabilize the output voltage and does not damage the connected sensitive electronic devices. In the modern market, inverters have made a huge step forward in terms of technology and performance; for this reason the best brands of

generator sets and alternators in the world are moving along this line of thought.
