## **Product description:**

### UNIMEC AGRICULTURAL FLATBED 600KG

Unimec is an Italian company specialized in the production of mechanical components and systems for a wide range of industrial applications. Among the solutions offered by Unimec, the agricultural flatbed Kg 600 is an ideal choice for those looking for a high-quality and resistant product, capable of supporting heavy loads in the agricultural field.

The agricultural flatbed Kg 600 by Unimec is made of high-quality materials, including high-strength steel, which guarantees maximum robustness and durability. Thanks to its load capacity of 600 kg, the flatbed can be used to transport a wide range of materials, such as crops, tools, fertilizers, and equipment.

Unimec also offers a complete after-sales service to its customers, ensuring maximum satisfaction. The company provides a wide range of original spare parts and accessories to ensure the maximum efficiency and reliability of its products.

The agricultural flatbed Kg 600 by Unimec can be mounted on tracked mini-transporters or other suitable vehicles, offering a wide range of applications in the agricultural field. Thanks to its sturdy structure and versatility, this agricultural flatbed is an ideal solution for agricultural companies that need a high-quality product capable of supporting heavy loads.

Unimec is a company that focuses on innovation, quality, and customization of its products to meet the specific needs of its customers. Thanks to its experience and competence, Unimec is able to offer reliable and high-quality solutions for agricultural companies.

In conclusion, the agricultural flatbed Kg 600 by Unimec is a reliable, resistant, and customizable solution for transporting materials in the agricultural field. Thanks to its load capacity of 600 kg, its sturdy structure, and its versatility, this agricultural flatbed is an ideal option for agricultural companies that are looking for a high-quality product capable of supporting heavy loads.
