

UNIMEC FG17A5 ANTI-THEFT BOX 150 Kg

Product price:

305,00 € tax excluded

Product description:

UNIMEC FG17A5 ANTI-THEFT BOX 150 Kg

UNIMEC FG17A5 is an anti-theft skip with a load capacity of 150 kg, designed for material handling, it prevents accidental damage to loads during transport.

The heavy duty construction of the skip makes it ideal for use on construction sites, gardens, parks and car parks. The FG17A5 is equipped with a loading surface made of galvanized sheet steel resistant to corrosion and weathering. The body structure is made of water-painted steel, which guarantees good resistance to wear and scratches. UNIMEC FG17A5 is equipped with an upper panel with an anti-burglary system, which protects the load during transport and facilitates loading and unloading.

The UNIMEC FG17A5 skip has a compact size which makes it easy to maneuver in confined spaces. Its low weight also makes it easy to move manually, without the need for lifting equipment.

The UNIMEC FG17A5 container is supplied with a tubular steel support frame, which guarantees good stability during transport. UNIMEC FG17A5 is a robust and resistant anti-burglary container, designed for the handling of materials in environments where the protection of the load is essential.
