

# VITRIFRIGO Electrical Panel for Single Chiller Unit Standard version

**Product price:**

**794,84 € tax excluded**

## Product description:

### VITRIFRIGO ELECTRICAL PANEL FOR SINGLE CHILLER

The VITRIFRIGO Electrical Panel for Chiller Unit represents excellence in the field of conditioning systems for yachts and boats.

This single chiller unit, an integral part of MACS, offers superior performance thanks to its advanced technology and cutting-edge design.

The beating heart of this unit is its VITRIFRIGO electrical panel, a concentration of power and control ensuring optimal operation in every situation.

Thanks to its electronic control instrument, the electrical panel enables precise and reliable management of all aspects of the air conditioning system.

The VITRIFRIGO chiller unit, or units in parallel, are powered and controlled by the VITRIFRIGO electrical panel, whose central role in system management cannot be underestimated. Through this electrical panel, it's possible to control the overall power supply of the air conditioning system, including chiller units and fan coils. Additionally, it allows adjusting the chiller's operating mode, choosing between cooling, heating, or ventilation, based on the specific needs of the surrounding environment.

Moreover, the electrical panel also allows control of the pumps for marine water and fan coil circuits even when the machine is idle, ensuring comprehensive and efficient system management at all times.

With dimensions of 310 mm in width, 425 mm in height, and 160 mm in depth, the VITRIFRIGO integrates perfectly into the system, offering high performance in a compact space.

In conclusion, the VITRIFRIGO Electrical Panel for Chiller Unit is the ideal choice for those seeking a reliable, efficient, and high-quality conditioning system for yachts and boats. Thanks to the combination of advanced technology, intelligent design, and high-quality materials, this product is destined to meet even the most demanding needs of shipowners and navigation enthusiasts. Purchase the VITRIFRIGO today and enjoy maximum comfort aboard your vessel.

**Technical characteristics VITRIFRIGO Electrical Panel for Single Chiller Unit:**

Width: 310 mm

Height: 425 mm

Depth: 160 mm
