

GENERATOR 11KVA SINGLE-PHASE STAGE V AVR

Product price:

5.370,00 € tax excluded

Product description:

GENERATOR 11KVA SINGLE-PHASE STAGE V AVR

Generator Single-phase equipped with a BRIGGS & STRATTON 21HP **StageV**, delivers a maximum power of 11KVA, complete with AVR voltage regulator.

The generator is ready to use. composed of a NSM Made in Italy alternator, self-excited without brushes and with **AVR** voltage regulator. The generator is equipped with electric starter with battery which allows practical and fast use even when cold. The generator has low fuel consumption, in fact it consumes only 4.9 litres/hour at 75% load.

STAGEV EMISSION REGULATIONS

Equipped with a "mobile" STAGEV engine, as required by European Regulation 2016/1628. These new engines make it possible to exponentially reduce the emissions of particulate matter and nitrogen oxides supplied by the generator into the environment, and guarantee a 200% reduction in environmental impact compared to standard engines.

AVR VOLTAGE REGULATOR

Its operation is simple. This is very simple when resistive loads are powered, more complex – the situation in the case of predominantly inductive loads: the delayed phase-shifted current contrasts the inductor magnetic field, causing a drop in voltage at the alternator output terminals; to compensate the phenomenon, the AVR intervenes automatically by increasing the excitation current, until the output returns to the nominal value. If the load is instead capacitive, the current acts as a magnet for the inductor causing an increase in the output voltage, and the AVR intervenes by reducing the excitation current.

ATS AUTOMATIC STARTER PANEL ARRANGEMENT

The generator set is ready for use. prearranged for the use of automatic starting panel ATS. Thanks to which you will no longer have to; worry about blackouts because if it goes via the mains, this panel is on. capable of starting the generator automatically and will allow you to to continue your business; without losing your work data.

Technical characteristics:

Phase type: Single-phase

Maximum power: 12 KVA / 10.8 KW

Continuous power: 11 KVA / 9.9 KW

Fuel: Gasoline

Voltage: 230 V

Frequency: 50 Hz

Engine: BRIGGS & STRATTON 21HP

Number of cylinders: 2

Emissions standard: Stage V

Engine speed: 3000 rpm

Starter: Electric

Socket panel: 1 x CEE 16A 3P 230V, 1 x CEE 32A 3P 230V, 1 x CEE 63A 3P 230V

Alternator: NSM made in Italy

Voltage regulator system: AVR

Consumption: 4.9 Lt/h at 75% load

Capacity tank: 50 Lt

Autonomy: 10.2 h at 75% of the load

Length: 1100 mm

Width: 600 mm

Height: 830 mm

Weight: 222 Kg

Supersilenced

Non-binding images and technical data.

Product features:

Phase: Single phase

Maximum power single phase (KW): 10.8

Continuous power single phase (KW): 9.9

Maximum power single phase (KVA): 12

Continuous power single phase (KVA): 11

Fuel: Gasoline

Frequency (Hz): 50

Voltage (V): 230

Sockets configuration: n.1 presa CEE 16A 3P 230V, n.1 presa CEE 32A 3P 230V, n. 1 presa CEE 63A 3P 230V

Engine: BRIGGS & STRATTON 21HP

Emissions Regulations: Stage 5

Engine rpm (rpm): 3000

Starting system: Electric

Engine capacity (cm³): 627

Number cylinders: 2

Alternator: NSM, made in Italy

Fuel tank capacity (L): 50

Consumption (L/h): 4.9 @ 75%

Running time (h): 10.2 al 75% del carico

Length (mm): 1100

Width (mm): 600

Height (mm): 830

Dry weight (Kg): 222

Silenced: Yes

Super silenced: Yes

Product type: Generator

ATS Switch device : Optional

Voltage regulator: AVR

Engine manufacturer: Briggs&Stratton
