## **Product description:**

### VITRIFRIGO C85iX STAINLESS STEEL FRIDGE-FREEZER

Vitrifrigo C85iX is a stainless steel refrigerator with a total capacity of 85 litres divided between the freezer and refrigerator part, complete with Steelock OCX2 system. With a single fixing profile it is possible to position the refrigerator in both the door outside and door inside version by simply moving the profile itself, which also has a concealed slot that optimises perimeter ventilation.

The upper top also features an element that allows the 'Vent Position', i.e. the possibility of leaving the door ajar when not in use, thus preventing the formation of mould and unpleasant odours.

The Vitrifrigo C85iX is equipped with a safety lock and a Steelock OCX2 door locking system, which prevents the door from opening accidentally while the vehicle is being driven. Designed to be highly energy efficient, with an A+ energy efficiency class and low power consumption. This makes it ideal for use in recreational vehicles, where energy conservation is important.

In the upper top of the Vitrifrigo C85iX there is an element that allows the 'Vent Position', i.e. the possibility of leaving the door ajar when not in use, thus preventing the formation of mould and unpleasant odours.

The Vitrifrigo C85iX refrigerator is powered by 12/24V DC and can be connected directly to the battery of a recreational vehicle, making it an ideal choice for motorhome and caravan enthusiasts.

In conclusion, the Vitrifrigo C85iX is an excellent choice for those looking for a compact and reliable refrigerator for small spaces. With a sleek design and advanced technology, this refrigerator offers excellent performance and quality food preservation.
