Product description:

DOMETIC FRESHJET FJX4 2200 VEHICULAR AIR CONDITIONER 2200W

DOMETIC FRESHJET FJX4 2200 air conditioner, perfect for installation in vehicles, is one of the smallest rooftop air conditioners for cooling and dehumidifying motorhomes and caravans up to 7 meters in length.

The Dometic FreshJet FJX4 2200 is an air conditioner for RVs and recreational vehicles that uses heat pump air conditioning technology. This particular model has a cooling output of 2200 watts and a heating output of 1000 watts, making it particularly suitable for large RVs.

The design of the Dometic FreshJet FJX4 2200 features an extremely low and unobtrusive profile, making it suitable for mounting on any recreational vehicle roof without spoiling its aesthetic appearance. Its aerodynamic shape also makes it less susceptible to wind and vibration while driving.

One of the main features of the Dometic FreshJet FJX4 2200 is its ability to run quietly, thanks to its optimized ventilation technology.

The air conditioner is able to provide even and rapid cooling, thanks to the presence of two internal fans, which ensure even distribution of cool air throughout the room. In addition, the Dometic FreshJet FJX4 2200 has a dehumidification function, which can remove moisture from the air and reduce the formation of mold and bacteria.

WARNING!

The purchase or possession of the DOMETIC DIFFUSER FJ ADB ELECTRICAL speaker is required for installation.

TECHNICAL FEATURES DOMETIC FRESHJET FJX4 2200

Cooling capacity: 2200 W
Heating capacity: 1000 W
Input voltage: 220 - 240V
Input frequency: 50Hz
Cooling airflow: 7500 BTU / h
Heating airflow: 3400 BTU / h
Cooling at rated current: 4.8A
Heating at rated current: 5.2 A
Operating temperature range: - 2 °C ... 52 °C
Refrigerant: R32
Amount of refrigerant: 360 g
CO2 equivalent: 0.243 t
Protection class (rooftop unit): IPX4
Noise level: Remote control: Yes
Timer: Yes
Width: 752 mm
Depth: 702 mm
Height: 225 mm
Weight: 30.4 Kg

Product features:

Frequency (Hz): 50
Voltage (V): 220 - 240
Protection degree: IPX4
Refrigerating yield: 7500 BTU/h / 2200W
Heating power: 3400 BTU/h / 1000W
Length (mm): 752
Width (mm): 787
Height (mm): 225
Coolant: R32
Weight (Kg): 30.4
